

**Received From Chest  
Fund Three Times  
Amount Contributed**

The Mokena PTA, with Mrs. Berle Needham as chairman, is sponsoring the Community Chest drive in Mokena this year. She and her helpers started work Monday.

Many persons have not given too willingly in past years to this drive. In way of explanation, the Community Chest drive for Will county has been undergoing changes and improvements in the handling of the money which came to it, until now, under the able and business like managing of Richard Jones in Joliet, it is working most efficiently.

To show where the money went which Mokena contributed last year, which was \$475, we cite the following. As the Civic association headed the drive they were allowed to keep \$50 of it. That aided them in their contributions made to the Scouts.

Mokena benefited from the drive to the extent of \$1,584.93, and they gave only \$475. Broken down the benefits were: The Boy Scout organization, numbering 52 boys, received \$317.72; Girl Scout groups, or 117 girls, \$783.90; nine persons from Mokena received help from the Catholic Charity and home Bureau to the amount of \$148.51; Silver Cross hospital was paid \$159.80 for four charity patients from Mokena and the dues were paid for \$175.00 for Y.M.C.A. amounting to \$175.00 for seven Mokena young people. This benefited the youth by learning to swim and the various other offerings which the "Y" provides.

It is hoped that Mokena citizens will give more freely this year knowing that they received from the community fund more than three times the amount which they gave, and this is just one example. We all share from everyone, the large donors in cities help the small communities.

Don't forget the date—November 4 at Ann Rutledge school. Come, meet your neighbors, and enjoy yourself."

**Under The Cross  
Of Malta**

Another meeting of the VFW will be held Thursday, October 26. Nearly every member has an idea about how they would like to see the VFW operate, but it's always the same gang that comes out. This meeting will be just a bit different in that Commander Peterson says that lunch will be served after the meeting. So that should be an added inducement for some of you to attend.

Dues are payable and we are trying to get a 100% paid up membership by December 31 or sooner. Many have already paid their dues, but we have a long way to go yet. Commander Peterson appointed Robert Liess and Eino Saarela on the membership committee to replace John Horras who has asked to be released from the post because of his work.

Saturday, Oct. 28 is a date to remember for all those dance lovers. It's a masquerade ball and competition for prizes. We hope everyone will come out for a real good time.

**LETTERS TO  
THE EDITOR**

Tinley Park, Ill.  
October 22, 1950  
Dear Mrs. Semmler,

Let me say to you that there were no objections to your editorial of October 12 I am writing to say that I was shocked and sorely distressed.

The U. N. flag is a symbol of the nations of the world working together for peace, and in no way detracts from our national flag, whether we approve or not, the U. N. Day has been approved by many organizations and will be observed in many churches throughout our country.

How any one who seems to be so jealous of Our flag could listen to and then quote in a newspaper the remarks about the meaning of the colors of Our flag—as in this week's issue is beyond my comprehension. Such desecration of Our flag seems the essence of inconsistency with the previous editorial.

We are enjoying the recent improvement in the Tinley Park Times news items.

Sincerely yours,  
Eloise B. Kester

A son, Clarence, preceded him in death several years ago as did a brother, William.

Born in Joliet December 4, 1884, Mr. Purdy moved with his parents, the late Mr. and Mrs. William Purdy, to the farm on Gougar road which has since been his home with the exception of one year when he lived in Lockport. He has been retired from active farming for several years. His son Joyce has taken charge of the land. He recently built a new house near the original homestead in which he, Mrs. Purdy, their two daughters and grandson Ronnie, have been living.

Although not in the best of health for some time, he was fairly active until Thursday when he was removed to the hospital after a severe heart attack from which he failed to rally, and which caused his death just one week later.

**LIONS PAINT  
LANES ON NEW  
TINLEY STREET**

The Tinley Park Lions club members turned out in number Sunday to paint parking lanes and safety markings on the newly black topped Oak Park avenue.

This is a part of the Lions program of assisting in the betterment of the Tinley Park community. The parking lanes consist of white lines for parallel parking in the business district of the village. Spaces are marked off for each car. Cross walks and no parking areas are painted with a distinct orange color. Safety lines and slow signs have been painted on the road approaching the school crosswalk. At the crosswalk more lines in white and orange call the attention of the motorists to the school crossing.

In the near future the Lions club will make available a safety flashlight which will be placed at this crosswalk and will warn motorists to stop when the light is flashing and then to proceed with caution. Presentation of this safety device will be made to the school patrol. The date of the formal presentation will be announced later.

The regular meeting of the Lions club was held Wednesday, October 18, George Clayton of Johnson and Johnson was the speaker. He presented the Junior Chamber of Commerce's Freedom forum, presenting the problems which are facing us with regard to Socialism and Communism. He explained ways in which these could be recognized and what each individual will do to help preserve the American Way of Life.

The next meeting of the Lions club will be at the school November 1 at 8 o'clock. This is the regular monthly business meeting.

The village board is most appreciative of the splendid co-operation of the Lions club in this work.

They hope many will come to enjoy a splendid evening. Tickets are now available and a request is made to get them in advance.

Friends of Albert H. Krusemark, Sr., a practicing attorney in Joliet for many years, were shocked when they heard of his sudden death Sunday. He had been in poor health for a number of months, having undergone surgery this past spring.

He was apparently stricken with a heart attack Sunday while he was repairing a stone wall in the back of his home, 1777 Maple street, Joliet. His body was discovered by his sister-in-law Margaret Ann Hermann about 11:30 a. m.

He was born June 16, 1882 in Green Garden township and moved with his parents when a small lad to the village of Frankfort where he has lived all his life, with the exception of the last few months when he moved to Joliet. He attended the Frankfort public school and later on was on the baseball team as pitcher. He was graduated from Northwestern university in 1907 and admitted to the Illinois bar the same year.

He went into the office of Attorney Elijah Meers at Joliet shortly before opening his own office in 1907. In 1933 he formed a partnership with his son Albert Jr.

He was united in marriage with Miss Mary Stellevagon of Frankfort February 12, 1914 who passed away last year. He later married Mildred Hermann of Joliet.

Mr. Krusemark was active in the Republican party. He managed Louis Emmerson's campaign for governor, was precinct committeeman of Frankfort for many years; a member of the Will County Bar association; the Shriners, Masons Lions club and a life-long member of St. Peter's Evangelical and Reformed church at Frankfort where for many years he took an active part.

He also served on the county selective service board of appeals during World War II and recently retired from the Will county zoning board of appeals. He semi-retired from his law work in 1948.

Surviving are his widow and their infant daughter Roselba; son Albert H. Jr., and a daughter Mrs. Paul Gerhold of New York; a brother Fred of Oak Park; five sisters, Mrs. Lena Lochbiller, Oak Park, Mrs. Estelle Batell, Berwyn, Mrs. Clara Marti, Arkdale, Wis., and Mrs. May McMahon and Mrs. Violet Whitlark of Mokena.

The body was at the Blood and Grant funeral home in Joliet.

The poultry men, who did not see the animals, believe the damage was done by dogs because of the manner in which they were killed.

## Does One Vote Count

We hear so often, "Oh, my vote won't count," or "My one vote won't swing the election one way or the other." But it does count, for had there been but just 3.4 more votes in each precinct in Illinois in 1948, Dewey would have carried Illinois. Had there been but one more vote in each precinct in one other state, that state would have carried Dewey victoriously. This is not to say that we think Dewey should have been elected, but just to show what one vote means.

In Mokena there are 750 voters and of that number 250 never vote. If that holds true in each of the 101 precincts in Will county, the power that each individual vote has is easily seen.

Recently unusual history was made in this country when the Congress of the United States gave its President, upon his request, full power alone. No other president has ever asked for that power, for that was the idea in the founding of our government, to take away from one person, king, or whatever title that one person had, autonomy power. That was what drove European people to our shores over 300 years ago and founded a government where there would be freedom of enterprise, speech, etc.

But rightfully, can we blame our President for such action, or Congress in giving that power, especially AFTER our President took his stand against the anti-communist bill which was passed over his veto? No, only the voters can be blamed, those who voted for this President who asked for full power, and the congressmen who gave it. But more so the blame should be borne by those voters who did not care to go to the polls and vote.

Membership in the Blue Cross Plan for Hospital Care is again available to residents of Will county during a re-enrollment in the Plan sponsored by the Will County Health Improvement Association. Volunteer workers will visit eligible residents of the county until November 3 to explain the program and to take applications for membership. Information about the Plan is also available at the Farm Bureau Building in Joliet.

The Blue Cross program provides residents of the county many liberal hospital service benefits, including bed and board in a semi-private room, for 30 days in each calendar year plus an additional 90 days when half the cost of Blue Cross benefits received will be paid by the Plan. General nursing services and special diets are also provided without cost for members in the 178 Plan hospitals in the state. The importance of these services is revealed by the fact that they account for approximately 47 per cent of all Blue Cross benefit payments.

People who are interested in joining Blue Cross Hospitalization may contact the following solicitors in your area if they have not already contacted you: Mrs. E. Wondrasek, Mrs. Davis Gougar, Mrs. J. Minion, Mrs. Mrs. Ivan Archibald, Mrs. Laura Carlson, Mrs. Ray Walsh, Mrs. Fred Gill, Mrs. Arthur Nieland, Mrs. Harold Scheer, Mrs. Lawrence Kohl, Mrs. Joe Kline, Mrs. Harold Hebert, and Mr. A. C. Geuther.

## What's Your Intake?

Lesson for October 29, 1950

FEW PEOPLE would care for a diet of sawdust, mixed with old bacon rinds and with carbolic acid for a drink. Yet some people who are very careful of what goes into their stomachs are astonishingly careless about the intake of their minds.

What goes into your mind counts for more, and lasts longer, than what goes into your mouth. What you eat can kill you—your body, that is; but what you think, what you read, what you hear, can kill your mind. It can even kill your soul. You can afford to be particular. Down at the Cracked Cup Cafe they give you no choice. If you don't like the 50c dinner you can walk out; and if you are at all particular you will walk out. But at the best restaurants you are offered a wide choice, and the experienced diner-out will read the menu carefully before ordering.

Are you a Christian? Then don't feed your mind at the mental equivalent of the Cracked Cup Cafe. Go to a better spot. The beauty of food for the mind is that the best costs no more. The best foods for the table are rather expensive; the best mind-foods, soul-foods, are not.

## Eye-Gate

IS WHAT you listen to, good for your mind? What's your intake, by ear? A woman who had roomed in another woman's house for some time was looking for a new place. Her old room was inexpensive, sunny, convenient, clean; there was nothing wrong with the room. But she had to listen to the landlady every day, and from her she never heard good of any one.

"If I stay there any longer I shall go crazy," the roomer confided to a friend. "She'll get me to thinking the way she does, and she thinks everybody's a crook."

In Tennyson's "Idyls of the King" is that fine rule of the Round Table: "To speak no slander—no, nor listen to it..." Listening to slander, trash, mean and malicious gossip, day after day, is bound to have a serious effect on any one's mind.

## Eye-Gate

THE STRANGE thing is that Christians can be seen taking the greatest of pains picking out the right food for their dogs and cats, and yet never exercising the least choice in what comes into their minds by ear or eye. They will let the radio run on hour after hour, they look at whatever the television puts on the screen,—the dirty with the clean, the trash with the jewels (if any). They read the newspapers from front to back, or vice versa, they read all the comics whether they are amusing or not. But when it comes to picking out something good for their minds, really going to the trouble of selection, and paying out folding money for it, how many, even Christian people, will do it?

It would be interesting to compare what most people spend on quite unnecessary stuff like soft drinks and cigarettes, with what they spend for books in a year's time. Would you like to sit down with a great and good man or woman and let him talk to you by the hour, to give you the best of his mind and heart? It can always be done—with a good book. Not, usually, the best sellers!

An intelligent Christian woman recently had to move almost a thousand miles; when you move that far and have to pay by the pound for what you take, you screen your stuff pretty carefully. "I am throwing away all my best sellers," she said. "There's not a one worth wasting freight on." She was right about most best-sellers. But the old-time, long-time, all-time best seller of them all is the Christian Bible.

## Is Your Mind a Vacant Lot?

IT IS MORE than a question of what you read and see and hear. An even more serious question is: What do you think about? Good reading, even the Bible, was never meant to be a substitute for thought. One of the great books of ancient times was "Consolations of Philosophy," written by a man in jail without a book in his cell. But the fine books he had read were in his head and heart, and when he became a political prisoner, alone and poor and friendless, his mind was still a garden. What is your mind—a garden, or a desert, or only a vacant lot littered with junk?

## A Plea to Congress

From The American Press

When 80% of grass-roots editors answer "Yes" to the question, "Do you fear that our nation is headed toward Socialism," don't you think it is time something was done about it?

We have no reason to believe that the majority of Congress wants Socialism. We know that if the victors in the last Congressional election had run on a Socialistic ticket, they would have been soundly defeated. Yet it is the votes of Congressional majorities which have created the situation which makes our country editors see the socialistic handwriting on the wall.

What can be done about it? The editors say these are the big things to do:

1. Drastically reduce the size and cost of Federal government.
2. Re-establish home-rule by returning governmental authority, wherever possible, to the states and communities.
3. Eliminate subsidies.
4. Reduce social services of the Federal government.
5. Balance the budget and reduce the national debt.

Frankly, the editors don't expect Congress to do any of these things. Their major hope seems to be that Congress won't pass too much additional "socialistic" legislation.

But there is no reason why Congress cannot do all of these things if enough individual members are willing to put the future of the country and of their own sons and daughters ahead of politics.

A good politician, it has been said is one who always votes for an appropriation and always votes against a tax. We have had far too many of such "good politicians" occupying seats in Congress.

It has become such a concern to the country editors that many no longer ask for tax reductions. They are willing to let present high taxes stand, and some would even be willing to pay higher taxes, if only Congress would reduce government costs enough to make it possible to chop down our staggering national debt and return to sanity.

## Keep Egg Production Up With Lights

Shortening fall days mean that it's time for you to turn on the lights to keep your fall and winter egg production up.

Sam Riddle, extension poultryman at the Illinois College of Agriculture, says you should provide artificial light for a 13- to 14-hour working day for your farm flock.

You can turn on the lights in either the morning or the evening—it doesn't make any difference to the hens. Just be sure to turn them on at a regular time every day.

If your hen house is 200 feet well during the winter without the extra stimulus. But probably none of the hens will respond to the lights right away. It may take

## Law On The Farm

By H. W. Hammah, Professor of Agricultural Law, College of Agriculture, University of Illinois (Member of Illinois Bar)

## DOG LAWS

There is an old common law principle that a dog is "entitled to one bite," which is just a way of saying that until a dog's owner knows he will attack people he cannot be held liable. But in 1949 the state legislature passed a law which says that "If a dog, without provocation, attacks or injures any person who is peaceably conducting himself in any place where he may lawfully be, the owner of the dog is liable..." Apparently this law removes the "one-bite" theory.

Ownership of a dog is defined as "harboring or keeping." This makes it impossible for an "owner" to

escape liability by simply saying, "The dog is a stray, I paid no license fee on it, it doesn't belong to me," if the facts show that he was "harboring or keeping" within the meaning of the law.

There are four other provisions in the Illinois law that are of importance to farmers:

1. An act makes the owner of a dog liable for all damages "...that may occur to any person by reason of such dog pursuing, chasing, worrying, wounding or killing any sheep, goats, cattle, horses, mules, poultry or swine..." However, the dog's owner is not liable for damages resulting from rabies unless he knew his dog had rabies.

2. Another section of the same act provides that "any person seeing any dog in the act of pursuing, chasing, worrying, wounding or killing sheep, goats, cattle, horses

mules, poultry or swine unaccompanied by or not under the supervision of the owner or keeper... may pursue and kill such dog."

3. A law adopted in 1917 gives a sheep owner the right to put out poison on his premises to kill sheep killing dogs, provided he does so with "...reasonable care and with good intentions..."

4. The dog license law, first adopted in 1879, provides for an indemnity fund to be maintained by the county treasurer, from which and indemnity for dog losses can be paid to persons owning sheep, goats, cattle, horses, mules, swine or turkeys.

Maximum indemnities are: Sheep and goats, \$15; Cattle, \$75; Horses and mules \$50; Swine, \$25; Turkeys, \$5. The laws referred to are in the Illinois Revised Statutes, Chapter 8, Sections 12a, 12b, 12d, 18 and 19.

## I Am Your Publisher

I am your newspaper publisher. Across my desk go problems from every department of the newspaper. If a business as complex and varied as a newspaper has a "head," then I am that head. On me rests the ultimate responsibility for everything printed in your newspaper.

In my mind I carry problems of the editorial, the business, and the mechanical departments, and publicly I represent your newspaper.

Whether I deal with the problems from my desk in a one-linotype shop, or from a desk in the offices of a big city daily, my problems are largely the same.

Someone must be sure that the news the paper prints is well-written and timely so people will want to read it. This will provide sufficient circulation to enable your newspaper to change rates of advertising to provide a living for the people who work on the paper and enable the paper to operate. All the while the newspaper must provide a public service to each person who contacts the paper in whatever way. When all these problems are coordinated and solved, then you have a newspaper.

My day may begin with breakfast out before lunchtime I will make decisions as widely separated as what the newspaper's official attitude is on local events and why a linotype kicks out slugs that only say "etaoinshrdlu". By the time my day is finished I may have bought new supplies, and earned what percentage of advertising your newspaper carried last week.

In dealing with these problems I meet the public, the people who work on your newspaper, the people who sell supplies to your newspaper, advertisers and readers of the paper.

I am YOUR publisher.

## TODAY'S meditation

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

THURSDAY, OCTOBER 26

"That which we have seen and heard declare we unto you, that ye also may have fellowship with us: and truly our fellowship is with the Father, and with his Son Jesus Christ". (1 John 1:3). Read 1 John 1:1-7.

In spite of opposition, discouragement, and even persecution throughout the centuries, Christianity is penetrating to every corner of the earth. What is the tremendous power behind this movement which plays a definite role in the life of people?

During my boyhood in the Arctic it was a common sight to see an elderly missionary doctor making his rounds among the igloos. When ever we saw a pale white spot on his face, we would speak to him helpfully, "Doctor, your face is

frozen." Once inside a dwelling, he showed no concern for his frozen face as the warmth of the Spirit of Christ within him expressed itself in his ministry among us.

That was thirty and more years ago. And yet among the Eskimos whom this American missionary served, it is safe to say that his Christian spirit marches on today. The light received and passed on is the driving force of our Christian faith.

## PRAYER

O Lord, Father of us all, we are thankful for the ministry of Thy Gospel. May it lead us to an unselfish life to the end of glorifying Thee, in Jesus' name. Amen.

## Resurface Utility Tables

UTILITY tables are a common necessity on the farm and in the home. It's a good idea to check the condition of their tops occasionally. To give the best service, the tops should be smooth, hard and simple to clean. Rough, worn tops make work difficult. Those that are hard to clean are unsanitary, and in most cases sanitation is very important.

If a utility table in the workshop, basement, milkhouse, dairy barn, feed room or garage needs a new top, it may be covered very easily with a panel of Ma-

sonite quarter-inch tempered hardboard. This material comes in four-foot widths and lengths up to 12 feet. It has a smooth surface which is widely known for its durability and resistance to moisture. The hardboard is extremely tough and will wear a long time.

It's a good idea to keep a panel on hand around the home or farm because hardboard has so many uses. Men and boys who are handy with tools will find innumerable household furnishings and gadgets can be made incorporating this versatile material. Hundreds of manufacturers use tempered hardboard in furniture lines and thousands use them in their factories as bench and table tops, the surfaces of pallets and trays, as aisle runners and mats and in other spots requiring unusual wearability.

## You Can't Build A Better Mousetrap!

"They're not the best-looking boarders a man ever had," Hack Turner said one day, "and they've got awful tempers. But I've found it pays to have 'em around." Hack was talking about a family of barn owls, nesting in his silo this year. Some folks believe those little white-faced screechers kill chickens—and ought to be shot on sight. But Hack disagrees. "Up at State University they've studied barn owls for years—and never known one to eat a chicken. On the other hand, a daddy owl will clean up around 300 mice a

## Speaker Tells Of Danger of Voters Apathy in Elections

As election eve draws nearer, the Republican party's volunteer workers are scheduling more township rallies and neighborhood meetings for the purpose of having the GOP candidates meet the Will county voters.

One of the larger meetings this past week was a Lockport rally, sponsored by the Lockport Township Women's Republican club. Joliet Attorney Paul O. McKeown was the principal speaker.

Theme of McKeown's address was the ever-increasing need to awaken the voters' interest in their government.

"It is particularly interesting to note," McKeown said, "that the average family today spends much time deciding how to get the most for his money in the purchasing of relatively small expenditures such as food and clothing. At the same time, those same families spend little or no time selecting a government which, this year, is taking between 40 and 50 per cent of their annual incomes in direct and indirect taxes.

"Yet, these people take no interest in a coming election to select their government, until several nights before the election, they pick up their newspapers and try to pick up enough knowledge to decide what candidates to vote for. For some reason, they don't seem to be any more interested than this

last minute study in selecting a government that can and does take away 40 per cent of their annual incomes.

"At the last election held in Will county," Attorney McKeown continued, "a total of 41 and six-tenths per cent of the voters did not even bother to go to the polls. This fact again points to the opinion that many voters don't seem to care what happens to that 40 per cent of the annual paycheck."

McKeown declared that in the end, there can be no such thing as pro-labor, farm or business governments. This type of government will defeat its own purpose thru the selfish interests of its various elements, each trying to obtain more and more favors from the government it helped to elect. The defeat of such a government, he pointed out, can be seen in the growing discontent of the English people with their present unsatisfactory labor government.

"Of course," the speaker said, "there are people who must be sold on the importance of voting. These are the people who claim that the candidates on both parties are all alike. 'Why bother to vote? It is a waste of time when one candidate is the same as the next. It doesn't matter to me which one gets elected,' they say.

"This type of voter is like the man who pretends to be religious and says that he would go to church except that the members of the church are all hypocrites and the church has too many flaws in its ideas. This type of voter also can be compared to a man who wants to spade a garden. He is offered two tools, but instead of selecting the better of the tools, he digs up the garden with his hands.

"We think the Republican party is the best tool, whetted in the open primary and steeped in Americanism," McKeown declared.

"At every election, there is a certain amount of 'wolf crying' of course but some of it can't be lightly dismissed because, like the old saying—where there's smoke there's fire—some of it is true. That is why we should find time before election to reflect on the headlines of recent months. We should study our international diplomacy, which has brought us to the verge of rearming the vanquished Germans to fight for us against our former ally Russia.

"Then, too, there is the confused Far East diplomacy, which has had us fighting in an unprepared war shortly after our state department

had announced that all was well. We should check back to the headlines relating to the president's background, his Kansas City associates, his friends such as Maragon and Vaughan and the rest. And we should check back on the secretary of state and his avowed loyalty to his good friend, Alger Hiss, even after Hiss had been found guilty of perjury on two counts by the federal court of New York," Attorney McKeown declared.
